**SHOOT IN AIR,
INTO WATER AND
SUBMERGED WITH
THE SAME ROUNDS!**

The 21st Century Ammunition!

DSG Technology represents a exceptional new breed of patented high-tech ammunition that is breaking what has been believed to be the boundaries of the laws of nature.

Until recently it has been a known fact that bullets shot into water, stop after a few inches. DSG Technology have now managed to prove this wrong by bringing swimming bullets to the market! We have spent more than 10 years carefully crafting and refining our projectiles to perfection.

Norwich University is accredited by the New England Commission of Higher Education (formerly the Commission on Institutions of Higher Education of the New England Association of Schools and Colleges, Inc.).

U.S. News & World Report rankings are based on undergraduate programs. Norwich University's Project Management concentration in the MBA and MSISA programs are accredited by the PMI Global Accreditation Center for Project Management Education Programs (GAC). The National Security Agency and Department of Homeland Security have designated Norwich as a Center of Academic Excellence in Cyber Defense.

SECTION 1

GENERAL INFORMATION

WELCOME LETTER

Welcome to the *2019 Modern Warfare Symposium and Expo* at Fort Bragg, North Carolina. This is the 2nd annual Modern Warfare Symposium and Expo held jointly with the Global Special Operations Forces Foundation (GSF) and the U.S. Army Special Operations Command (USASOC). The level of support we received from the Army and USASOC has been world-class and we are blessed to be a part of this event.

National security experts talk about near peer competition and the move away from SOF and intelligence operations, but if you actually read our adversaries' doctrine you will see that our adversaries want to avoid major theater operations. Instead our adversaries want to compete and fight in the shadows using surrogates and methods with no attribution prior to the involvement of large conventional formations. Special operations still carry the bulk of current operations and that will not change for the foreseeable future or in the shift to near peer competition. SOF will be asked to do more - not less.

Fort Bragg is one of the largest military bases in the U.S. It is home to the forces that will be among the first deployed in any future conflict. Hosting the Modern Warfare Symposium and Expo on Fort Bragg gives us an opportunity to bring together experts and senior SOF leaders from the base that would not normally be able to travel. These leaders come together for frank and candid discussion on the future of warfare, and listening to their challenges makes this a very unique event. The symposium also acts as a catalyst to bring together the community and we are truly honored to be a part of this great gathering.

A handwritten signature in black ink, reading "Stuart W. Bradin".

Stuart W. Bradin
President and CEO
Global SOF Foundation

WELCOME LETTER

To maintain our competitive advantage against our adversaries, we must continue to evolve. As state and non-state actors actively compete against our national security objectives and those of our allies and partners, we must provide the best prepared, educated, and lethal combined joint force in history.

To succeed, we must remain agile and adaptable; we must question our assumptions; and we must do all we can to empower our world-class Men and Women. We owe our people every possible advantage against every enemy, we want every fight to be unfair, and we will be relentless in that pursuit.

That's why we are here today -- to challenge our perspective and our expectations for tomorrow's warfare. This symposium will enhance our ability to collectively prepare our forces to be ready every day to fight and win decisively.

SPEAKER BIOGRAPHIES

Brigadier General Ricahrd E. Angle

*Deputy Commanding General for Operations,
U.S. Army Cyber Command*

Brigadier General Richard E. Angle was born in Orange Calif. He was commissioned from the United States Military Academy at West Point as an infantry officer in 1991. While serving with the 1st Battalion, 4th Infantry Regiment at the Joint Multinational Readiness Center in Hohenfels, Germany, his assignments included rifle platoon leader, scout platoon leader, and scout platoon observer-controller. After graduating from the Infantry Officer Advanced Course and the Special Forces Qualification Course, Angle was assigned to 2nd Battalion, 10th Special Forces Group (Airborne), where he commanded a Special Forces Operational Detachment and served as the battalion assistant operations officer. He later commanded 1st Battalion, 1st Special Forces Group (Airborne), in Okinawa, Japan. Angle graduated from the U.S. Army Command and General Staff College and was assigned to the United States Army Office of Military Support in Washington, D.C. His staff assignments include tours as military assistant to the Secretary of the Army, as Chief of Staff, U.S. Army Special Operations Command; and most recently as Deputy Commanding General, 1st Special Forces Command.

Colonel Sean Berg

Deputy Commander, Special Operations Command-Pacific

COL Robert (Sean) Berg was commissioned in 1995 in the US Army as a 2nd Lieutenant in the Chemical Corps after graduating from the University of California, Davis with a degree in Environmental Toxicology. COL Berg served in 1-7th SFG(A) and 3rd Bn, 75th Ranger Regiment as a Battalion Chemical Officer before attending the Infantry Officer Advanced Course and the Special Forces Qualification Course. Upon SFQC graduation, COL Berg was assigned to 10 th SFG(A) where he commanded ODA 042, ODA 044 (MFF), HSC 2-10th SFG(A) and served as the 10 th SFG(A) A-S3. While assigned to 10 th SFG(A), COL Berg deployed in support of Operation JOINT GUARDIAN, Kosovo, as well as the initial invasion of Iraq in 2003 and subsequently OIF II and III. After spending a year at Joint Force Command, Brunssum, Netherlands as the aide-de-camp to JFC-B DCOS OPS and graduating the Command and General Staff College, Fort Leavenworth, with a Masters in Military Arts and Science, COL Berg returned to 10 th SFG(A) as the A/1-10 SFG(A) commander in Stuttgart, Germany. COL Berg deployed multiple times in support of Operation ENDURING FREEDOM-TRANS SAHEL and then served as the TF 10-2 commander in Afghanistan supporting ISAF SOF. COL Berg returned to Stuttgart as the 1-10 SFG(A) Battalion Operations Officer and served a follow on joint assignment with Special Operations Command, Europe as the J35 Contingency Operations Branch Chief. While with SOCEUR, COL

SPEAKER BIOGRAPHIES

Berg deployed to Afghanistan as the SOF Fusion Cell Operations Director and the Director, ISAF SOF Operational Coordination Group. COL Berg commanded 1-10th SFG(A) from June 12 through July 14 and deployed the Battalion HQ to the Combined Special Operations Task Force-10 (CSOTF-10) for two full rotations, closing out the Battalion level mission in July 2014. COL Berg graduated as a Distinguished Graduate from the United States Army War College in 2015 and then served as the Special Operations Joint Task Force-Afghanistan/JSOC Liaison Officer to Headquarters Resolute Support in Kabul, Afghanistan. COL Berg transitioned to the INDOPACOM theater as the 196th Infantry Brigade Commander, responsible for the support and validation of all US Army Pacific Reserve and National Guard forces, as well as delivering the Joint Pacific Multinational Readiness Capability across the six Pacific US Army Brigade Combat Teams. Following Brigade Command COL Berg served as the Director for Operations, Special Operations Command-Pacific (SOCPAC) and is currently the SOCPAC Deputy Commander.

Peter Bergen

Vice President for Global Studies & Fellows at New America, CNN National Security Analyst; Professor of Practice at Arizona State University; Chairman, Global SOF Foundation

Peter Bergen is a journalist, documentary producer, vice president at New America, CNN national security analyst, professor of practice at Arizona State University, and the author or editor of seven books. Bergen also serves as New America's Director of the International Security, Future of War and Fellows Programs. He is a contributing editor at Foreign Policy and writes a weekly column for CNN.com. He is a member of the Aspen Homeland Security Group and a fellow at Fordham University's Center on National Security. Bergen is on the editorial board of Studies in Conflict & Terrorism, a leading scholarly journal in the field. He has held teaching positions at the Kennedy School of Government at Harvard University and the School of Advanced International Studies at Johns Hopkins University. For many years he was a fellow at New York University's Center on Law and Security. He has testified on Capitol Hill seventeen times about national security issues.

Lieutenant General Fran M. Beaudette

Commanding General, United States Army Special Operations Command

Lieutenant General Fran M. Beaudette currently serves as Commanding General of the United States Army Special Operations Command (USASOC) headquartered at Fort Bragg. Prior to commanding USASOC, Beaudette was commanding general of 1st Special Forces Command (Airborne), Fort Bragg, NC. Beaudette was commissioned in 1989 as a military intelligence officer. In his first assignment, he served

SPEAKER BIOGRAPHIES

as a battalion assistant S-2, M1A1 crewmember, and armor platoon leader in Germany, Saudi Arabia and Iraq. He went on to complete Special Forces training in 1995. His first assignment was to the 3rd Special Forces Group (Airborne) where he commanded two Special Forces Detachments, commanded the Group Headquarters Company, and served as the Group assistant S-3. He then served as the aide-de-camp to the commanding general of the U.S. Army John F. Kennedy Special Warfare Center and School, and went on to serve as aide-de-camp to the deputy commanding general of Kosovo Forces. He commanded a Special Forces company at Fort Carson, Colorado, and in Kosovo, as well as served as a battalion executive officer and group operations officer for the 10th SFG (A), both at Fort Carson, and in Iraq. Following a tour on the Joint Staff in the J3 Deputy Directorate for Special Operations, Beaudette commanded 1st Battalion, 10th SFG (A) in Germany and Special Operations Task Force 10 in Afghanistan. He then served as the G3 and chief of staff for the U.S. Army Special Forces Command (Airborne) prior to commanding the 1st SFG (A) and the Joint Special Operations Task Force - Philippines. Beaudette then served as the executive officer to the commander, United States Special Operations Command. Beaudette served as the deputy commanding general, 1st Armored Division and Director of CENTCOM Forward (Jordan). He then served with Joint Special Operations Command as the assistant commanding general. Beaudette's previous assignment was with 1st Special Forces Command (Airborne), where he served as the commanding general. Beaudette is a graduate of the Citadel, the U.S. Army Command and General Staff College and the U.S. Army War College.

Lieutenant Colonel Fabio Cantini

*28th Operational Communications Regiment
"PAVIA", Italy*

Lieutenant Colonel Fabio Cantini, 28th Operational Communications Regiment "PAVIA", Italy.

John Costello

*Director of Strategy, Policy, and Plans for the
National Protection and Programs Directorate,
Department of Homeland Security*

John Costello is the Director of Strategy, Policy, and Plans for the National Protection and Programs Directorate at the Department of Homeland Security, formerly serving as the Senior Advisor to the Assistant Secretary for Cybersecurity and Communications. Before joining DHS, Costello served as a Congressional Innovation Fellow for majority staff in the U.S. House of Representatives Committee on Oversight and Government Reform. During his time on the Hill, Costello helped investigate the 2015 cyber breach of the Office of Personnel Management and helped oversee federal IT security. Previously,

SPEAKER BIOGRAPHIES

Costello was a research analyst at Defense Group Inc., where he concentrated on Chinese cyber espionage, information warfare, and intellectual property theft. Costello is a U.S. Navy veteran, serving under the National Security Agency and U.S. Cyber Command. He is fluent in Chinese Mandarin, graduating with honors from the Defense Language Institute. Costello's insights have appeared in Wired, Wall Street Journal, New York Times, Reuters, and Jamestown China Brief. Costello's research focuses on state conflict and stability in cyberspace, Chinese cyber operations, and intersection of cybersecurity, critical infrastructure, and national security.

Will Dewilde

Vice President, Operations, The Honor Foundation

Mr. Will Dewilde is the Vice President, Operations, The Honor Foundation. As a former senior executive inside Naval Special Warfare, I am humbled to Team up with THF to move the THF mission down the field for others in the future as a Servant Leader and Mentor. Mr. Dewilde is a 30+ year NSW SOF veteran.

Dr. Duncan Earl

President and Chief Technology Officer, Qubitekk

Dr. Duncan Earl is the President and CTO of Qubitekk, Inc. Prior to starting Qubitekk, Dr. Earl spent 20 years conducting energy and defense-related R&D at Oak Ridge National Laboratory in the fields of quantum sources, quantum computing, and quantum cryptography. Dr. Earl is a serial entrepreneur with numerous patents and technical publications.

Robert Ferriol

President, AEVEX Aerospace

Rob Ferriol is the President of AEVEX Aerospace. Prior to the formation of AEVEX, Rob served as President and CEO of CSG Solutions (CSG), a company he founded in 2009 to provide specialized intelligence & exploitation solutions to the ISR community. A Marine Corps veteran and decorated civil servant, Rob has maintained a career-long focus on ISR operations and capabilities. Prior to founding CSG, Rob planned and executed both tactical and operational employment of ISR assets for the elite Special Operations community in a wide variety of mission sets across the globe. At AEVEX, Rob continues to draw upon his unique experience to further evolve innovative end-to-end ISR solutions. His vision centers on advancing the company's worldwide impact by closing the gaps in ISR knowledge, efficiency, and effectiveness in both conventional and Special Operations Forces, as well as within combatant commands, government intelligence agencies, and in the broader defense and commercial sectors.

SPEAKER BIOGRAPHIES

Megan Furman

Deputy Director, Defense Digital Service, U.S. Office of the Secretary of Defense

Megan Furman is the Deputy Director of the Defense Digital Service (DDS). She has served in leadership roles in both government and the private sector. Ms. Furman comes to DDS from Palantir Technologies, where she led the National Security and Intelligence Community practice areas for six years. She brings deep experience in procurement reform, digital innovation, and organizational change within the technology space. Ms. Furman received her Master's degree from the University of Chicago and her undergraduate degree from Barnard College, Columbia University.

Charlie Greenbacker

Vice President of Analytics, In-Q-Tel

Charlie Greenbacker is Vice President of the Technical Staff at In-Q-Tel (IQT), the not-for-profit strategic investor that identifies, adapts, and delivers innovative technology solutions from venture-backed startup companies to support the national security mission. As head of the IQT Enterprise Technologies Practice, he leads a team of senior technologists driving investments across a broad portfolio, including data analytics, cyber security, and IT infrastructure. Each year, Charlie's team evaluates hundreds of new startups and makes dozens of strategic investments to adapt the most promising commercial technologies. Charlie earned an MS in Computer Science from the University of Delaware and received a Blackfriars Fellowship to study at the University of Oxford as an undergraduate. A veteran of the United States Air Force, he served overseas in Iraq, Kuwait, and Spain, attaining the rank of Captain. Prior to joining IQT, Charlie worked as a Data Scientist supporting the CIA, DIA, DARPA, and other elements of the defense & intelligence communities.

Marcus Hays

Chief Executive Officer and Co-Founder, ORBIS Wheels, Inc.

Marcus Hays is CEO and Co-founder of ORBIS Wheels, Inc., a company that has literally re-invented the wheel. Orbis's patented Ring-Drive™ technology enables the rim to rotate about a stationary hub which reduces inertia, friction and weight while simultaneously multiplying input torque and mechanical braking force. ORBIS has recently begun to partner with the US Navy to explore retrofitting existing Special Operations vehicles to make them more efficient, durable and stealthy in multiple dimensions. The Orbis Ring-Driven™ electric motorized version of the wheels can be retrofitted in place of conventional wheels with no penalty in unsprung weight.

SPEAKER BIOGRAPHIES

This eliminates half-shafts, CV-joints and other mechanical vulnerabilities while also improving ground clearance. And as Ring-Wheels™ eliminate conventional axle-centers, crab-crawling can be added to improve maneuverability, mission capabilities and utility.

Dr. David Kilcullen

President and Chief Executive Officer, Cordillera Applications Group

Dr. Dave Kilcullen is a bestselling author, a leading researcher in the field of unconventional and guerrilla warfare, and a former professional soldier and diplomat. He is President and CEO of Cordillera Applications Group, a research and development firm headquartered in Colorado, USA. Cordillera launched in August 2017 from Meta Aerospace Capital, where Dave was COO and Head of Applications Group. Before joining Meta, Dave founded and led Caerus Global Solutions, a strategic R&D firm in Washington DC, and First Mile Geo (now Native.io), a tech platform that enables researchers to rapidly pool and share analysis in austere field environments. Prior to founding Caerus and Native, Dave served 24 years as an infantry officer in the Australian Army, then with the U.S. State Department, where he was chief strategist in the Counterterrorism Bureau, Senior Counterinsurgency Advisor to Multi-National Force Iraq, and Senior Advisor for Counterinsurgency to Secretary of State Condoleezza Rice.

Major Joseph "Jay" Kosturko

U.S. Army Cyber Institute

Major Joseph "Jay" Kosturko is with the U.S Army Cyber Institute.

Lieutenant Colonel Eugenijus Lastauskas

Director, Strategic Communications Department, Lithuanian Armed Forces

Lieutenant Colonel Eugenijus Lastauskas is 42-year intel officer with a background of more than 14 years in Intelligence, CI & Opsec. Currently, he is the director of the Lithuanian Armed forces STRATCOM Department. He is a graduate of the Military Academy of Lithuania in 2000 & Mykolas Romeris LAW university in 2003 (Public Administration). He is awarded a Master's degree in Social Sciences.

SPEAKER BIOGRAPHIES

Christopher Miller

Special Assistant to the President for Counterterrorism, National Security Council

Mr. Christopher Christopher is the Special Assistant to the President for Counterterrorism, National Security Council.

General John M. Murray

Commanding General, U.S. Army Futures Command

General Murray was commissioned as an Infantry officer in the U.S. Army upon graduation from the Ohio State University in 1982. Throughout his career, General Murray has served in leadership positions and commanded from Company through Division, with various staff assignments at the highest levels of the Army.

Joe Musselman

Founder, The Honor Foundation

Joe Musselman is the Founder of The Honor Foundation (THF), a national non-profit and the first-ever career transition institute for the US Navy SEAL & Special Operation Forces (SOF) communities. THF has campuses across the country serving hundreds of families each year. Joe also created Honor For Life Foundation (honorforlife.org) a \$100M endowment effort solely benefiting the work of THF in perpetuity. He has recently joined the board of The Page Family Foundation **who** seeks to directly address the world's water crisis through technology in the interest of billions of people who struggle without reliable access to clean, safe drinking water.

Mike Quinn

~~Add~~ *Senior Manager, Ernst and Young*

Mike Quinn is a 2018 LinkedIn Top Voice in Management & Workplace with over 14 years of experience leading the Human Resource, Workforce Management and Recruiting programs of organizations with up to 17,000 employees. His expertise with LinkedIn and an engaging leadership style enable him to keep companies at the front of branding, marketing and veteran recruiting trends. Mike maintains a Top Secret, SCI clearance with a polygraph, which allows him to work in sensitive government and defense organizations. He is a retired U.S. Army Sergeant Major and now works for Ernst & Young, one of the world's premier consulting firms.

SPEAKER BIOGRAPHIES

Major General John Richardson

G3/5/7 U.S. Forces Command

BIO COMING

Dr. Kalev Sepp

Senior Lecturer in Defense Analysis, U.S. Naval Postgraduate School Naval Postgraduate School

Dr. Kalev I. Sepp is presently Senior Lecturer in Defense Analysis at the U.S. Naval Postgraduate School in Monterey, California. He teaches graduate courses in special operations, strategy, and irregular warfare to officers from the U.S. Army Rangers and Special Forces, U.S. Navy SEALs, U.S. Air Force, U.S. Marine Corps and allied special mission units. He lectures on security issues at national defense universities in the United States, Canada, Europe, and the Middle East. From 2007 to 2009, he served as the Deputy Assistant Secretary of Defense for Special Operations, and as a member of the White House Counterterrorism Strategy Group. Dr. Sepp was responsible for the Department of Defense global counterterrorism portfolio. This included policy oversight of all special operations world-wide, and formulation of the Department's global counterterrorism strategy. A former U.S. Army Special Forces (Green Beret) officer, he earned his Ph.D. at Harvard University, and his Combat Infantryman Badge in the Salvadoran Civil War.

Matt Stevens

Chief Executive Officer, The Honor Foundation

Mr. Matt Stevens is the Chief Executive Officer of The Honor Foundation. Mr. Stevens served as a Navy SEAL for 26 years.

Colonel Elizabeth Sweet

Defense Engagement Lead, Defense Innovation Unit

Elizabeth Sweet serves as the Defense Engagement Lead for the Pentagon's commercial technology hub, the Defense Innovation Unit (DIU). An active U.S. Army Reserve Colonel, she has served in several military operations including Joint Operation Safe Haven Panama, Joint Guardian, Kosovo and Operation Enduring Freedom. In her civilian career, she served as a Department of Defense civilian as an R&D Manager providing subject matter expertise in applying science and technology to operations. Colonel Sweet most recently served in the Chief Innovation Office in the newly formed 75th Innovation Command, as the Operations & Processes

SPEAKER BIOGRAPHIES

Portfolio Lead, liaison to the Defense Advanced Research Program Agency (DARPA), and as the Army affiliate of the Undersecretary of Defense Research and Engineering (USD R&E) Joint Reserve Directorate. She holds a Bachelor of Russian Language from Florida State University and a Master's of Science of Strategic Intelligence from the National Intelligence University, with a research focus on innovation, creativity, and technology diffusion in the Intelligence Community.

Patrick Tucker

Technology Editor, Defense One

Patrick Tucker is Technology Editor for Defense One. He's also the author of *The Naked Future: What Happens in a World That Anticipates Your Every Move?* (Current, 2014). Previously, Tucker was deputy editor for *The Futurist* for nine years. Tucker has written about emerging technology in *Slate*, *The Sun*, *MIT Technology Review*, *Wilson Quarterly*, *The American Legion Magazine*, *BBC News Magazine*, *Utne Reader*, and elsewhere.

Tim Van Name

Chief Technology Officer, U.S. Army Special Operations Command

Tim currently serves as the Chief Technology Officer in USASOC. Previously he was the Deputy Director of the Defense Digital Service, based out of the Pentagon, solving technology problems and hacking the bureaucracy within the Department of Defense. Before joining the Department's Rebel Alliance, Tim was the Deputy Director of White House Information Technology modernizing and replacing the technology used by the President and staff around the world. Prior to that he worked for the National Security Council and as a computer engineer within the Department of Defense and private industry.

Ian Wallace

Director, Cybersecurity Initiative, New America

Ian Wallace is director of New America's Cybersecurity Initiative, and a senior fellow in the International Security program. His research is mainly focused on the international security and military dimensions of cybersecurity policy. He is also a member of the 'Future of War' project. Ian joined New America from the Brookings Institution where he spent two years in the Foreign Policy Program as a Visiting Fellow for Cybersecurity. He was previously a senior official at the British Ministry of Defence (MOD). From 2009-2013 Wallace was as the British Embassy, Washington's defense policy and nuclear counselor. There he helped develop new UK/US mil/mil cyber link at both the operational and policy levels. Before joining the embassy he was a fellow at the Weatherhead Center at Harvard

SPEAKER BIOGRAPHIES

University where his research included working on the military implications of cyber capabilities. During his UK MOD career, he combined strategy and planning positions with operational postings to Pristina (2001-2002), Basra (2005) and Baghdad (2007-2008). He also served as the head of policy at the UK's operational HQ (2002-2003). His Whitehall appointments included Deputy Director of Capability, Resource and Scrutiny and Assistant Director of Defence Resources (with day-to-day responsibility for the UK MOD's overall resource planning process). From 2000-2001 he was the Assistant Private Secretary to the UK Defence Secretary.

Dr. Keenan Yoho

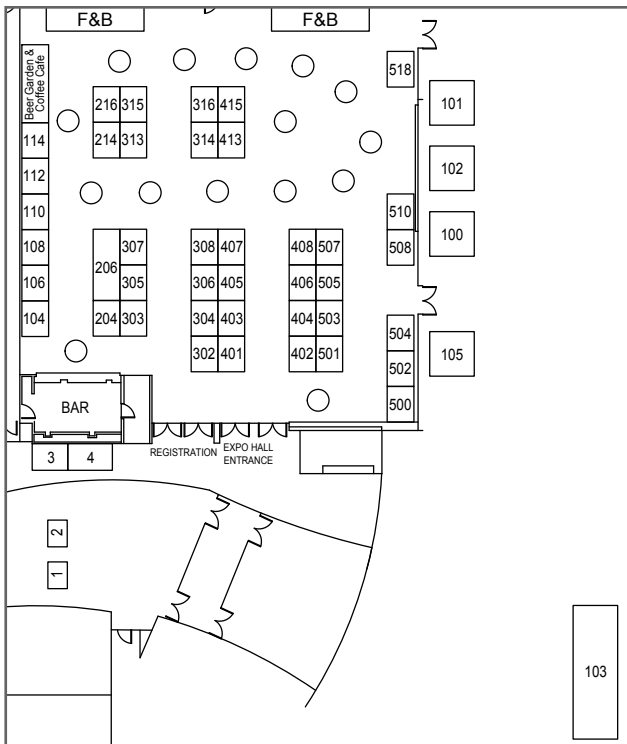

Vice President, Global SOF Foundation

Dr. Keenan Yoho has spent more than a decade working with senior management leading change in both commercial and public sector environments.

Dr. Yoho's research and applied work is focused on supply chain cost modeling and operations management to achieve enterprise-wide outcomes under conditions of uncertainty and resource scarcity. Dr. Yoho served as Senior Special Advisor to U.S. Special Operations Command (USSOCOM) from 2012 to 2014. During this time Dr. Yoho worked with a special team reporting directly to the Commander, USSOCOM that was charged with crafting and executing a plan for posturing special operations forces (SOF) for the next three decades. Dr. Yoho was recently an assistant professor at the Naval Postgraduate School in Monterey, California where he received 4 consecutive teaching awards including the School's highest award for excellence in teaching and impact beyond the classroom.
